

**Position:****Energy Advantage Inc.  
Strategic Energy Manager****Join Energy Advantages' Diverse Team of Energy & Environment Professionals**

Incorporated in 1996, Energy Advantage<sup>®</sup> has been growing steadily, adding high-profile names to its roster of satisfied customers every year. Energy Advantage<sup>®</sup>'s mission is to be a leading provider of objective energy and environmental management services that contribute to the profitability and sustainability of its clients, the well-being of its employees, and the prosperity of its shareholders.

Our vision is to have a significant positive impact on the global economy and environment. Our head office is located in Toronto, Canada, with regional offices across North America.

**The Position**

We are currently looking to place a Strategic Energy Manager in British Columbia. This position is intended to lead current and future long-term energy management engagements throughout the province. The successful candidate would be responsible for the following:

**Responsibilities**

- Lead the development of clients' strategic energy management plans in coordination with Energy Advantage<sup>®</sup> support staff;
- Act as main contact and subject matter expert for the delivery and implementation of strategic energy management plans;
- Identify potential opportunities for further sales activities within current strategic energy management engagements;
- Liaise with internal senior management to develop long-term client engagement strategies; and
- Other frontline duties in the context of assigned energy management projects as required.

**Specific Responsibilities for BC Engagements**

- Liaise with BC Hydro's PowerSmart program in the execution of energy management assignments to ensure maximum benefits are realized by the client.

**Qualifications**

- Minimum of 7 years experience in energy and environmental management within large organizations;
- Minimum of 5 years experience in project/program management and delivery relating to energy and the environment;
- Excellent communication and presentation skills;

- Strong interpersonal skills required, specifically the ability to liaise with executive level management;
- Ability to work in a fast-paced, dynamic environment; and
- Regular travel is required.

### **Educational Requirements**

- Post-secondary degree in relevant subject matter – Engineering, Environment, Economics, or Business
- Certified Energy Manager (CEM) designations preferred

### **How to Apply**

Interested candidates please send a cover letter and resume by fax or e-mail to the following:
