

Energy Procurement & Risk Management

Energy Advantage's Energy Procurement & Risk Management services provide effective solutions to manage energy procurement challenges

Is your company faced with the challenge of properly budgeting its energy expenses?

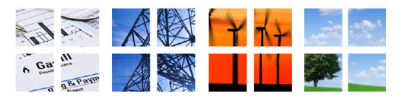

Do you understand how to mitigate the risks associated with volatile energy prices?

Do you want to leverage a large buying power to optimize price stability for procurement purchases?

Our Energy Procurement and Risk Management services will provide your organization with a comprehensive suite of solutions to effectively manage your energy procurement challenges.

Our independent and objective approach means that we sit on your side of the table and ensure you have a workable energy procurement strategy that is right for your business.

With over 14 years in the market, our experts monitor the market daily for buying opportunities, create customized strategies, and keep customers informed of market developments.

Energy Procurement & Risk Management Solutions

Natural Gas Procurement

Based on your company's purchasing objectives and tolerance for risk, Energy Advantage will develop procurement strategies, recommend credit-worthy and price-competitive suppliers, assist with supplier contract negotiations, and execute approved purchasing strategies. Our natural gas solution also includes optimizing delivery rates with utilities, enrolling/de-enrolling locations with utilities, conducting monthly nominations, verifying suppliers' monthly invoices, tracking natural gas consumption and deliveries, and recommending volume balancing transactions, as required.

Electricity Procurement

Based on your company's purchasing objectives and tolerance for risk, Energy Advantage will develop procurement strategies, recommend credit-worthy and price-competitive suppliers, assist with supplier contract negotiations, and execute approved purchasing strategies. Our electricity solution also includes preparing hourly/daily/monthly consumption load profiles, enrolling/de-enrolling locations with utilities, verifying suppliers' monthly invoices, and arranging for Retail Billing Services, where applicable. We also advise on the procurement of green electricity.

Petroleum Fuels

Energy Advantage's petroleum fuels solution includes identifying the local suppliers best suited to provide required products, assisting customers with preparation of tender documents with the objective of enhancing supplier participation, providing and executing (if required) hedging strategies and verifying suppliers' monthly invoices. Petroleum fuels include diesel, bio-diesel, gasoline and heating oil.

Benefits of Energy Procurement & Risk Management Solutions

- Cost predictability;
- Enhanced budgetability;
- Opportunity to leverage economies of scale with large buying power;
- Minimize risks associated to procurement purchases;
